Clear water - our
strength!

Clear water - our strength!

The Smartpond Endless Belt Filter PROline series

The filter series for every application!

As standard, the endless belt filter from the PROline series from Smartpond® offers a number of advantages! A multitude of mechanical optimizations, right up to the PROline control system with control, display and the additional control via the free Smartpond® App make this endless belt filter so unique.

Thanks to this plug & play system with different sizes - for koi ponds all with integrated biochamber - all wishes are covered!
